Columbia Proposition Being Rapidly Brought Out.

ICH TRAPPER'S PRIDE ORE

BUCKHORN OF OPHIR IN THE ORE MARKET.

W. C. Thomas, smelter superintengent for the Montreal & Boston company, came down from Boundary, B. Sunday to enjoy Christmas family. He expects to leave north again on Thursday night, the blowing in of the second furnace the company's smelter is scheduled r Jan. 1. During his stay here Mr. nomas will consult with the com-my's chief engineer, M. M. Johnson, for its immediate installatio own in, Mr. Thomas says the plant behaving like a veteran. The amount ore treated eery twenty-four hours

ible and with a force that co a handful of men. As soon as Mr. 700 tons per day. The third to close to 1,200 tons per day. Under the management of T. rummond, who went from this

e made to earn big money. It was only last summer that the roperties of the Old Dominion commy were absorbed by the Montreal & ton and the campaign spoken en exceedingly short for the revolu-onizing of a badly managed proposimoment are already being attain and the future of the proposition assured. Ultimately, and that before a great while, Mr. Thomas expects to have the smelting works equipped with a good contract for the conversion of the matte which his plant turns out economy of production and the conversion of the metallic contents of the campaign being carried out in all de partments, and no one will be satisfie till the best results are attained.

PARK CITY WINING NOTES.

New York Bonanza Ships Ore-A Change at Mt. Masonic.

the at the American Flag it is evident that big work is going on, though just what it is cannot be ascertained, owing management. It is safe to say, howshape and that a mill for the treatment of its second-class output is among the possibilities for next year.

Manager M. J. McGill of the New lork Bonanza stated vesterday that his property shipped 84,000 pounds of ore during the week. Work is pro-gressing nicely, the winze now being out the lime and quartzite contact which on the 400 level ran good in val-

and mining man, has been chosen by Sa company to take the superinendency of that property, vacated this seek by John C. Hasson. Mr. Hall is experienced and practical man, and ill doubtless do all that can be done Dwing to personal difficulties Mr. Hasson was asked to resign the fere part Wednesday, and are now being placed. Tower drills are to be installed and the development work pushed with all possible speed. Manager Spooner returned to the city Wednesday, after having been at the mine several days.

George Lindsey, ex-sheriff, returned this morning from the Uniteh reservation, where for three months past he has been prospecting. He is enthusiastic over the future of that country and is certain that next summer will see an exodus for that section. He says that aiready great prenarations are going on tor building, etc., and a factor of the closure of the country of the country of the country and is certain that next summer will see an exodus for that section. He says that aiready great prenarations are going on tor building, etc., and a factor of the country of the countr going on tor building, etc., and a Boston Con., but also in mining, is sure to come. Bingham Daly - West. beem, not only in an agricultural sense, for, according to Mr. Lindsay, those who think there is not plenty of min-leaf over there are badly mistaken. He and his associates have located nine-teen claims, on which is an unlimited amount of asphaltum and petroleum, which certainly promises big results for its owners. Samples of this native for its owners. Samples of this native asphaltum and other minerals from

SENSATIONAL GOLD MT. ORE.

Samples From Trapper's Pride Go \$2,600 Per Ton in Gold. Confiden

Figure 1 return sensational develop-frapper's Pride property of the Mad-sen Gold Mining & Milling company at Gold Mountain during the bast few weeks. Manager Victor Madsen is up from camp for the holidays with the information that the mine pever leader formation that the mine never looked

Samples of ore that have been as-turns of \$2,600 per ton in gold, but the exact part of the workings that the fock came from he does not know. He

passing and from them determine as as possible where the rich rock

comes from.

It is the intention to keep up develment steadily throughout the winter id get the mine in the best possible hape for production when the con templated mill is erected, something the management is very anxious to ee done during the coming year.

BUCKHORN IS SHIPPING.

First Car of Ore Under New Management Sold Yesterday.

The first car of ore from the Buck-horn property, at Ophir, to have been marketed since the deal was consu-mated whereby the Minnesota a Wisconsin combination now at t helm took charge, was marketed y terday. The lot netted somethiover \$800. Another carload of the sal kind of ore is now at the sampler a a big lot of concentrates that were p duced at the Ophir Hill mill in maki a test run for the Buckhorn manas ment, is now being loaded for mark From now on it is the intention ship as rapidly as the condition of roads to the railroad loading stati and the ability to secure teams w permet. Returns from the conce trate product is eagerly awaited, the run made in the milling o of the mine, as represented in t material will determine, in a la measure, the character of the mili th will be erected to accommodate t large tonnage of milling ore that blocked out in the mine.

NEVADA CON. SMELTER.

Plant at Ely Will Have a Capacity 2.500 Tons Daily.

Officials of the Nevada Consolidate at the company's property at Ely, Ne ore averaging much higher than w figured at the time of the organizati of the company. At that time it is figured that ore deposits averaged 2 been between 3 and 4 per cent. It was proposed to build a smelter

at Ely with a capacity of 1,000 tons, but mine developments warrant the Mont. Tono building of a larger plant and the Initial capacity will be 2,770 to 100. will be carried out upon a larger scale

gion are classed as low-grade, he ex-esses the positive opinion that the lines and smelter of the company can by a considerable investment in the company's shares from England.

Anaconda Dividend Posted.

New York, Dec. 26 .- A dividend of 871-2 cents per share on Anaconda Copper was declared today. This is accepted to be a quarterly dividend as against the semi-annual dividend declared heretofore

The last dividend preceding this one, declared three months ago, was at the rate of \$1.25 semi-annually, or \$2.50 per year, and nine months ago, the semiannual dividend was 75 cents per share or \$1.50 annually. As anaconda is controlled largely by the Amalgamated Copper, its sexpected that the divi-dends full go largely into the treasury of amalgamated.

MINING STOCK EXCHANGE.

Little Doing Following Christmas-Sales Lowest in Weeks.

It was simply a case of "the day after" on the mining stock exchange vesterday. Stress of Christmas and the present buying season made the market practically lifeless. Lower Mammoth was fairly active, 9,709 shares being sold at 40 cents and thereabouts. What little trading was done was confined, as a rule, to the "little stocks," the "heavies" being left strictly alone.

During the day 43,653 shares of stock with a selling value of \$15,761.20 change

DEAR MONEY HAS

Tide of Speculation Running Strong in Wall Street.

New York, Dec. 26 .- Further very large and variegated absorption of stocks marked today's proceedings in the stock market. The heavy demand for stocks at an advancing tendency of prices was a convincing demonstration of the confidence in values and the strong hopes for further advances. There was some apprehension that the Christmas market would prove to have been overdone on sentimental considerations. There was a good deal of admonition to be heard also in various quarters of Wall street this morning to the heavy requirements upon the money market and the danger of emmoney market and the danger of embarrassment to those over-committed in speculative ventures. The 35 per cent money rate before the close gave point to the warning. But the course of the early market soon dissipated the apprehensions that the Christmas advance was over and made small account of warnings of the conservatives. The money market seems to have no terrors for the speculative spirit any longer, the stock market having suc cessfully withstood such flurries in money so many times this fall that the safety of the position is felt to be as-sured. Speculative confidence continued inimpaired and there were reported to day perceptible growth in the outside

for stocks.

The profitable character of stock exchange business was indicated by the rapid advance in the rates for stock exchange seats. A sale was reported today at \$95,000 and numerous bidders were said to be seeking seats with the lowest offerings at \$97,500. The price of seats reached as high as \$90,000 for the first time in the history of the for stocks. the first time in the history of the stock exchange last week.

The aggressive leadership assumed today by Union Pacific and the United States Steel stocks was of large effect on sentiment. There was no specific news regarding either stock, but a strong impression was produced by the very general belief that the heaviest demand came from sources near to the control of these companies. Copper securities of all kinds were animated and buoyant. The extraordinary move-ment in Anaconda found its explanation in the later report of an enlarged dividend disbursement. Amalgamated Copper derived direct benefit from its large holdings of Anaconda stock. It made its best price in the last few minutes of trading. But the rest of the market was quite sharply affected by the profit-taking on the day rise, which became general after midday and which was aggravated by the violent which was aggravated by the violent

gains were much impaired Bonds were firm, United States bonds were all unchanged on call. Total were all unchanged on call. sales, par value, \$3,225,000.

GRAIN AND PROVISIONS.

Chicago, Dec. 26 .- Until late in the session wheat was inclined to be weak. Pit traders largely favored the selling side, but demand by leading longs had a tendency to restrict offerings. At the opening the market was depressed by the unexpected size of the world's Line agent for further part shipments. An English statistician on Saturday estimated the total movement at 8,000,000 bushels, but actual NOTICE. ment at 8,000,650 bushels, but actual figures supplied by the same authority today showed the movement to be over 11,000,000 bushels. Another weakening influence was an increase of 800,000 bushels in stocks of wheat at Minneapolis. Selling was also encouraged by reports of rains in India. In the last hour buying was commenced the last hour buying was commenced by several prominent commission houses and shorts, becoming somewha mand found the market appareltlyolz alarmed, covered actively. The demand found the market apparently oversold and the result was a quick rally in prices. The market closed firm and almost at the highest point of the day. May opened a shade lower at 871-4, sold off to 863-4, advanced to

873-4. Final quotations were at 875-8, a gain of 1-4 to 3-8. A slump of nearly 3 cents a bushel in the price of the December delivery, old style, and a recovery of the greater part of the loss was the feature of trading in corn. Profit-taking caused by reports of heavy local receipts started the decline. The December de livery, old style, opened at 471-8, broke to 441-2 and closed at 47. The Ma option held steady for the entire day It opened a shade lower, to a shade higher at 44 to 441-8, sold between 437-8 and 441-4, and closed unchanged at 44 1-8.

The oats market ruled steady. May closed unchanged at 31 3-4 to 31 7-8. Provisions were weaker after a firm pening. Local packers and foreignopening. Local packers and foreigners sold freely during the last half of the day. Final quotations on May pork were off 71-2. Lard was down 21-2 to 5 cents and ribs were a shade lower. The leading futures ranged as follows:

RATES.

KANSAS TOWN BURNED. Wilsonville, Neb., Dec. 25.—The business part of Herndon, Kam., was destroyed by fire today. Two drug stores, a meat market, bank and three general stores, including stocks and the buildings were burned, together with smaller concerns. A hardware store and general store alone are left. No estimate has been made of the loss. There is little insurance.
